

CHR v7: What Has Changed

V5	V7 - New User Interface and Features
Logging in	
Enter user name and password to log in	User enters user name and password and then accepts the PHI disclaimer 
User must look up CCHIE help desk contact information	CCHIE Help Desk contact information is on login screen 
Landing Page	
Once logged in, user lands on Home page and has to select ProAccess for Patient Search	User lands on Patient Search screen eliminating the extra step 
Searching for Patient	
Advance Search screen is landing page when you selected ProAccess	Basic search screen appears. User must select Advanced Search link to access advanced search fields. 
User could not search on patient name, date of birth and SSN at same time	User can narrow search results by searching on a combination of fields including date of birth 

User can “Break Glass” if there are additional records available for the patient

Access to additional records is available on the search results screen. User must select a reason for accessing patient’s record

Additional Records May Be Available

You are trying to access patient information for which there is no current system data showing you to be a physician of record. Permitted uses of the information are for treatment and payment purposes for patients which the user has a direct and active treatment/care provider role or has been requested to perform a consultation by the physician who is the primary care provider for the patient. You can establish this relationship as either ongoing or for one time access by choosing the appropriate option below. Access to all patient records is tracked through an audit process and inappropriate accesses will be subject to the sanctions set forth in the conditions of use policy.

Remember my association with patient
 Select your reason ▼
Access Additional Records

All care visits are visible in search results. Multiple visits for a patient is expanded

Patient search results are collapsed into a single patient record. Selecting the **+** button will expand the results to all sending sources where patient has been

Click column titles to sort

	Patient Name	DOB	Age	MRN
+	ZZZZTEST, PATIENT ONE	02/19/1981	37 years	12200397
	ZZZZTEST, PATIENT ONE	08/28/1990	27 years	12200397

Finding Patient Care

Pt. Info tab was the default landing page containing no PHI

Landing page with the summary of the 3 most recent events, results, reports and care summaries is the default

CHR v7: What Has Changed

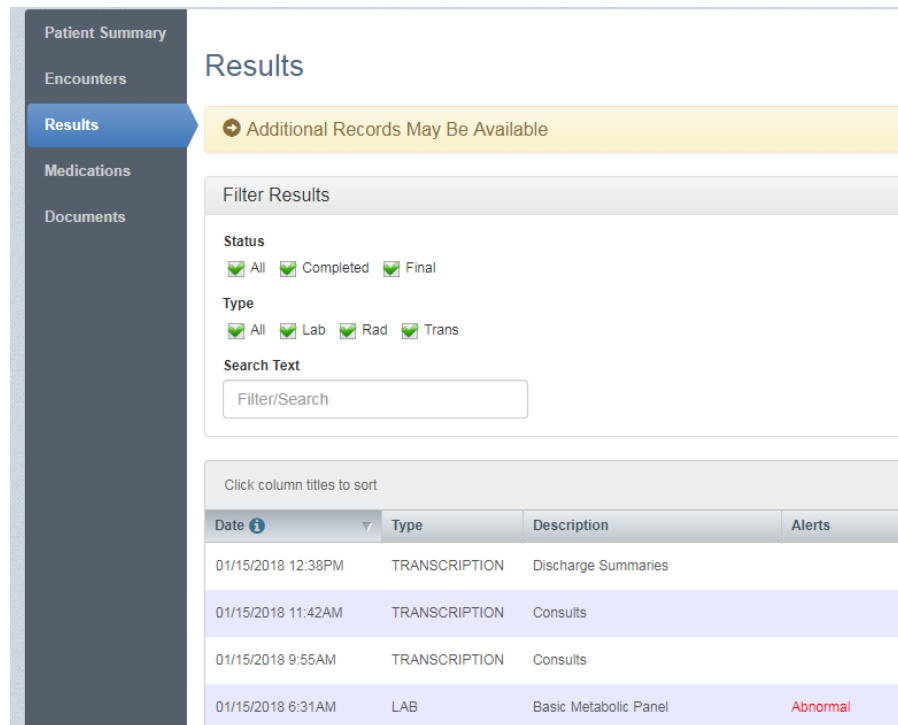

Tabs are accessed at the top of the screen

Tabs are accessed on the left side of screen

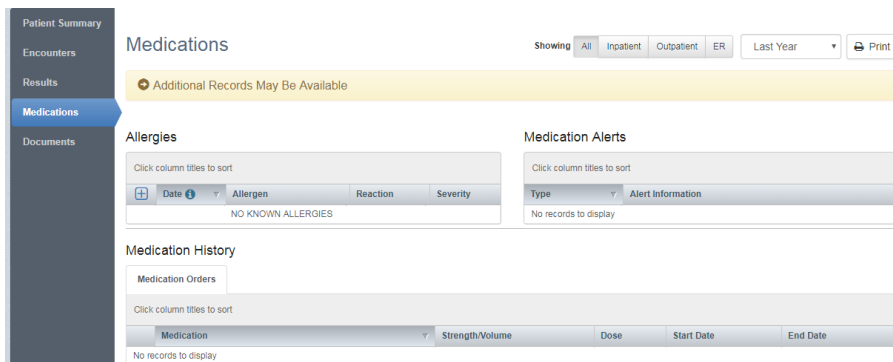

User searched for discharge notes, transcription notes, etc. on Reports tab and pathology, labs, image results, etc. on Tests tab

Transcription reports, labs and radiology are all on the same tab – Results.

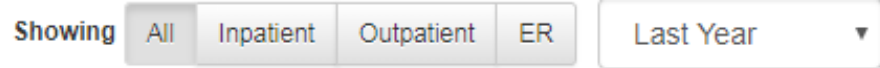

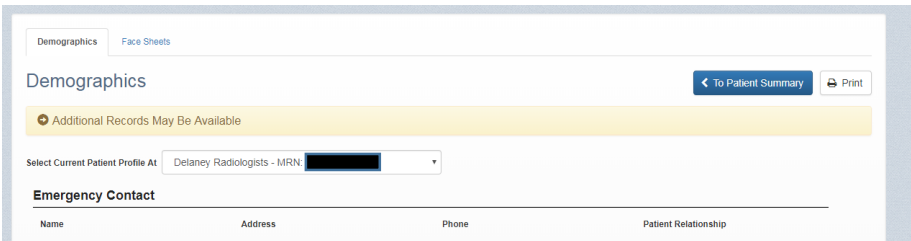

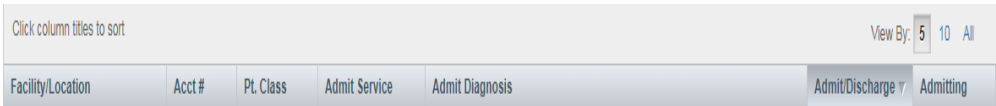

User found medication information in transcription reports and Care Summary Documents

User will continue to only find medication information in the transcription reports and Care Summary Documents. There is a Medication tab; however, CCHIE will not have medication data populated on this tab. There may be allergy data on this tab.

CHR v7: What Has Changed

<p>Default date range was Last 3 Months for Reports, Encounters, Tests and Documents tabs</p>	<p>Default date range is the last year</p> 
<p>User condensed results on tabs by selecting drop down for Patient Class on Encounters tab</p>	<p>User selects patient class on right of screen</p> 
<p>Print icon was inactive unless user selected the root of the returned results</p>	<p>Print button will only appear on the right side of the screen when user is able to print.</p> 
<p>User accessed Pt. Info and Face Sheets by selecting the tab at top of screen</p>	<p>User accesses Profile & Face Sheets button at top right of screen</p>  <p>User can toggle between Demographics and Face Sheets tab on resulting screen</p> 
<p>Continuity of Care Documents were created by selecting "New CCD" at top right of the screen</p>	<p>User selects Create Care Summary button at top right of the screen</p> 
<p>User viewed events on Face Sheets 5 at a time</p>	<p>User can select how many events they view on the screen at the right side of screen. Note, if you view All, the data for that event will be at bottom of the screen</p> 

CHR v7: What Has Changed

User selects Find External Documents icon on left of screen and follows steps to search for external documents

User selects the Find External Documents button on the right side of the Documents tab to access Care Summary Documents for Duke, UNC Healthcare, NHRMC Physicians Group/Specialists, Vidant and others

External Patient Discovery pop-up window opens. If patients found, there will be results under the title bar. Select the result you want or check the selection box in the title bar to return all results (recommended). Click on Find Patient Documents.
